# Tzila Aharoni

## Cyber Analyst/Operator
## Fullstuck/ Backend & Fronted Developer
## AI/Machine Learning and Data Science

I successfully finished my Cyber Security studies
At this time, I am completing my Full stack studies and AI/Machine learning/Data.
I come with a rich baggage from the world of medicine with a great desire to make a switch to the world of technology. I'm a quick learner with high intelligence and can adapt fast to any given situation. I enjoy the process of learning, and embrace the challenges that come along with it. My logical understanding is on point and I have excellent social skills. I have a holistic vision with ability to adapt to changes in the changing technological world. I'm full of motivation to learn, and take it to the next level
